

Drop Hardware

Drop Wire Hook Rams Horn 30-01732

The Diamond® Difference™

Does Your Hardware Pass the Test of Time?

The unique, proprietary approach that we have to mechanical galvanizing, and the standards that we insist on for our raw materials, ensure that Diamond parts can withstand corrosive environments for decades, a factor that is important today since replacement costs are so high.

Diamond® Products Stand the Test of Time.

Application

The Diamond Drop Wire Hook is used in telephone drop installations to attach the bail of a drop wire clamp to a masonry or wood surface.

Specifications

- Made of high quality steel wire.
- Mechanically galvanized to meet ASTM specifications A153 and B695.
- Load capacity exceeds 700 LBS.
- Used as a standard by all major telephone companies and throughout the telecommunications industry.
- R.E.A. accepted.

The Diamond Drop Wire Hook is made of high quality steel wire, galvanized to ASTM specifications, with Diamond's quality galvanizing process. It will accept bails of all service drop wire clamps. Use a No. 16 screw to secure the hook to a building or pole.
