

Diamond® Bonding Clamps

Bonding Connectors for Meter Panels — Corner Mount

The Diamond® Difference™

Does Your Hardware Pass the Test of Time?

- superior resistance to corrosion.
- most effective method for small parts
- Eliminates the problem of Hydrogen Embrittlement.

Diamond® Products Stand the Test of Time.

SC-51 Bonding Connectors for Meter Panels —Corner Mount

- Stainless steel mounting screw is specially designed to remove/pierce paint on the meter box, ensuring a positive metal-to-metal contact with the box surface
 - Simple, fast single-bolt installation keeps the connector securely mounted
 - Lanced bottom edges of connector
- securely grip the bottom of the fixed top cover of the meter box
- Ground wire cup washer and nut securely seat the looped ground wire beneath the ground wire nut
 - Tighten screws to 20 in. lbs. torque.
 - UL and CSA listed
