

Aerial Fiber Cable Stripping Tools

Features & Benefits

- Available in two sizes (for 6 mm and 7 mm cable)
- Ambidextrous handle – two blade cartridge mounting options
- One handle can support two cartridges (6 mm and 7 mm)

Compatibility:

- All PPC Aerial Fiber Cable
- Miniflex® QuikDrop™ Fiber Cable

Overview

The specialized round construction of PPC Aerial Fiber Cable incorporates steel or FRP strength members within the cable jacket to maintain a concentric round cable design. The PPC Stripping Tools use profiled roller blade technology to penetrate the outer jacket with ease and simplicity. Using traditional tools to remove the jacket can be cumbersome (particularly steel strength member cable where standard rotary cutters cannot be used). The PPC Aerial Cable Strippers make this task quick and simple for stripping both cable ends and in mid-span access applications (window cutting). The PPC Aerial Fiber Cable Stripping Tools are dedicated rotary blade hand tools designed to bisect the PPC Aerial Fiber Cable, allowing access to the internal fiber cable, loose tube or bundle.

Applications

- End and Mid-Span Cable Stripping Distribution and Drop Cable
- ADSS and Metallic Strength Members
- Field and Factory Environments

Ordering Information

Part Number	Description	Dimensions	Pack Quantity
		<i>HxWxL</i>	
10-1323	6 mm Tool (Handle + Blades)	210 x 67 x 36 mm (8.3 x 2.6 x 1.4 in)	1 pc (individual)
10-1324	6 mm Replacement Blades	n/a	1 pc (individual)
10-1325	7 mm Tool (Handle + Blades)	210 x 67 x 36 mm (8.3 x 2.6 x 1.4 in)	1 pc (individual)
10-1326	7 mm Replacement Blades	n/a	1 pc (individual)
