QuikPush® Enclosure
Small Distribution Box

Features & Benefits

- Allows for 100% splice-less FTTH installations
- IP54 protection from dust and water
- Can accommodate 12 x SC or LC duplex adapters
- Capacity for 12 drop cables per closure
- Lockable front cover for total fiber security
- Compact design with hinged splice trays
- Storage for up to 25 m (82 ft) of 3mm Miniflex® cable
- Supplied with wall fixings, cable ties and connector adapters

Compatibility
- All PPC and industry standard cable
- QuikPush® cable connector (SC & LC)
- PPC Microduct

Overview

PPC's QuikPush Small Distribution Box (QP-SDB) is a stylish, compact fiber distribution point designed specifically for pre-terminated FTTH applications. Supporting fully pre-terminated installations, the distribution box can facilitate point-to-point (12 fibers) and passive network (1:8) architecture within MDUs. The QP-SDB is designed specifically to overcome the slack storage challenge of pre-terminated FTTH applications with capacity for up to 25 m (82 ft) of slack fiber cable.

Suitable for indoor use, the QP-SDB can accommodate up to 12 QuikPush drop cables for onward routing within MDUs.

Applications

- FTTH
- Multi-dwelling Units
- Premise installations
- Telecommunications

Technical Data

Material	Dimensions (h) x (w) x (d)	Weight	Recommended Slack Storage	Port Diameter	Ingress Protection	Operating Temp
	mm (in)	kg (oz)	m (ft)	mm (in)		°C (°F)
Plastic	340 x 260 x 90 (13.4 x 10.2 x 3.54)	1 (35.3)	25 (82)	2-3 (1/8)	IP54	-20 to 70 (-4 to 158)

Ordering Information

Part Number	Description
10-1335	Small Distribution Box with 1:8 Splitter
10-1336	Small Distribution Box with 12 x Pigtails
