- Designed for indoor and outdoor use
- A variety of cable port nozzles are available

### Overview

The PPC® FutureLink® family of enclosures offers a flexible and cost-effective solution for fiber network deployments. Craft-friendly, expandable “grow as you go” designs support both greenfield and brownfield projects, and can be used for indoor or outdoor applications. These slack storage enclosures provide flexible solutions for handling excess cable in fiber network deployments, for use as a stand-alone box or coupled to other SFIT enclosures for an integrated solution. They can be installed in an indoor IDF closet, or on the outside wall of smaller MDUs as a demarcation point.
