16F Fiber Access Point

Features & Benefits

- Horizontal mechanical sealing and advanced internal structure design
- Engineered PC plastic with high-strength to ensure a longer lifespan and excellent sealing performance
- Spacious for winding and storing fibers
- Sealing design ensures proper sealing performance after re-entry
- Multi-functional with different PLC splitters and adapter panels
- Works for branch splicing, splitting and patching
- Saves time and improves work efficiency
- Pass-through option

Overview

The PPC Fiber Access Point (FAP) is designed to splice and interconnect fiber optic cables, and is suitable for FTTH applications in multi-dwelling buildings. This box is light weight, is small in size and is perfect for routing fiber. The 16F FAP is wall mountable, and easy to install and maintain. When used as a fiber distribution wall box, it allows straight-through application where installers can remove only the required fibers dedicated for the floor. Other fibers from the distribution cable can continue without interruption through the box.
Application

- FTTH Access Networks
- Telecommunication Networks
- CATV Networks
- Data Communications Networks
- Local Area Networks (LANs)

Ordering Information

FAP16 ___ ___ ___ ___ ___ ___ ___ ___ ___ ___

| 6 | 7 | 8 | 9 | 10 | 11 | 12-14 | 15 | 16-17 |

06. Type
Empty = Standard
M = with PLC module

07. Configuration
UNLD = Unloaded
E = Loaded with PLC without connector
Empty = With PLC Module

08. Adapter
1 = SC Simplex

09. Polish Type
U = UPC
A = APC
Empty = Unloaded

10. No. of adapters/pigtails to be Loaded
A = 6 port
B = 12port
J = 8 Port
K = 16 port
Empty = Unloaded

11. No. of PLC
1 = 1No.
2 = 2Nos.
Empty = Unloaded

12-14. PLC configuration
108 =1:8 PLC
116 =1:16 PLC
208 =2:8 PLC
216 =2:16 PLC
Empty =Unloaded/Without PLC

15. Accessories
A = With Aerial mount Kit
P = With Pole mount Kit
W = With wallmount kit

16-17. Customization
Blank = Standard
XX = As per customer requirement
