

Miniflex[®] Fan Out Kit

Features & Benefits

- Compatible with 3mm Miniflex[®] fiber cable
- 900um color coded furcation for up to 12 fibers
- Tool-less install
- Fan Out length of 1 meter (39 inches)

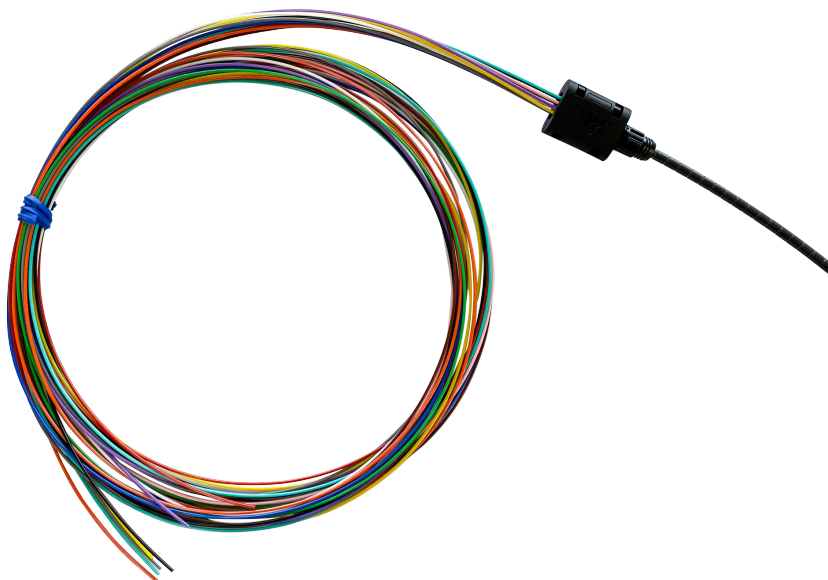

Overview

PPC's Miniflex Fan Out Kit is designed to route 250 μ m fibers into 900 μ m buffer tubes to prepare the fibers for termination. The kit requires no tools and is compatible with 3mm Miniflex fiber cable, up to 12 fibers. PPC's 900 μ m buffer tubes are color-coded per TIA-598 industry standards and allow for easy identification of individual fiber channels.
