## Overview

The PPC Network Utility Enclosure is a multi-purpose cabinet made to hold network, utility, and industrial control components in both indoor and outdoor applications. Each cabinet features an easily removed aluminum or wooden backboard for mounting a variety of network and electronic equipment. These units are ideal for everything from slack storage to custom configurations, from tower sites to the side of buildings, huts, multi-dwelling units (MDUs), or outdoor pad enclosures with limited space. Wherever and whenever you need something flexible to work with, the Network Utility Enclosure is an ideal fit.
