

# ONT Back Slack Plate

## Features & Benefits

- Slack storage capacity of up to 10 m of 2.2mm Miniflex® cable
- Tough, yet flexible PC-ABS material, color matched to the Nokia\* ONT (Optical Network Terminal)
- Four mounting positions for SC or LC Duplex adapter
- Four locations for Fusion Splice Heat Shrink Protectors
- Internal retention clips for incoming and outgoing cable
- Screw head mimicked mounting features
- Increasing depth of the ONT by only 13mm
- Removes the need for additional terminals and boxes
- Compatible with pigtails, patch cords and fusion splices
- Mounts to the wall in seconds, with no specialist tools required
- Adds connector dismount protection to the ONT

## Overview

PPC's ONT Back Slack Plate solution was created with space in mind as it removes the need to mount separate slack storage boxes and terminals inside the subscriber's home. This improves the customer experience by reducing the clutter on their walls, as well as reducing the cost of installation.

The ONT Back Slack Plate can accommodate up to 10 m of Miniflex cable slack, reducing the need for accurate surveying and reducing the number of cable length SKU inventory. It also provides functionality for SC footprint adapters and Heat Shrink Fusion Splice Protectors, allowing operators to connect the ONT in multiple scenarios with a variety of approaches.

An additional safety feature of the Back Slack Plate is a dedicated connector retention bracket, which prevents the SC connector from being unmated from the ONT by the subscriber.

The ONT Back Slack Plate mounts behind the Nokia\* ONT, fitting perfectly within the footprint of the terminal. PPC's slack plate only increases the depth profile of the Nokia\* ONT to 13.6 mm.

The ONT Back Slack Plate is designed specifically to work with the Nokia\* XS-010X-Q ONT.

## Technical Data

Dimensions (LxWxH)	Packaging Dimensions	Material	Color
135 x 25 x 135 mm (5.3 x 1 x 5.3 in)	155 x 32 x 147 mm (6.1 x 1.3 x 5.8 in)	PC ABS	White (RAL 9003)

## Ordering Information

Part Number	Description
10-1535	ONT Back Slack Plate, Splice-only Configuration
10-1535-SCA	ONT Back Slack Plate with SC/APC Adapter
10-1535-LCA	ONT Back Slack Plate with LC/APC Duplex Adapter
