

Optical Passive Solutions Overview

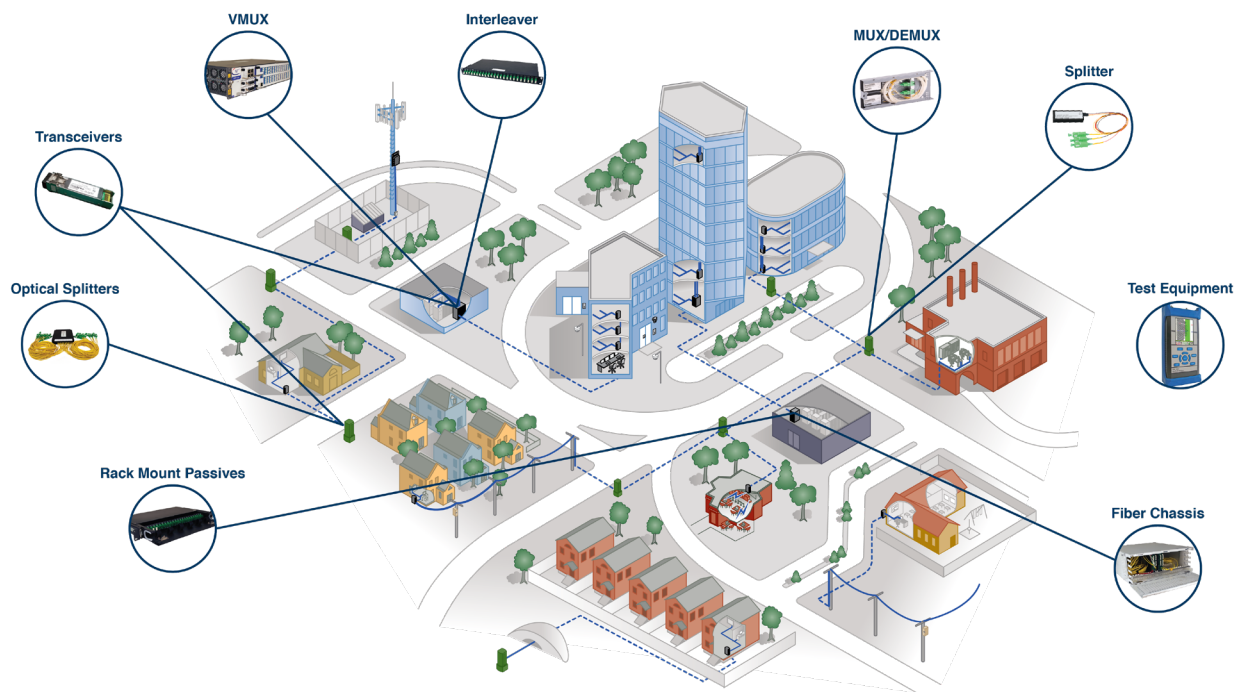

Optical Passive Solutions Overview

Overview

PPC offers a broad range of solutions supporting hybrid fiber coax (HFC) and passive optical networks (PONs), fiber deep and metro Ethernet (Metro E) buildouts, and distributed access architectures. From chassis and fiber management products, to transceivers, multiplexers and splitters - our portfolio is uniquely positioned to make us the single-source provider of all your passive component needs.

PPC Passive Products

PPC Passive Product Line Categories

Fiber Management Chassis

PPC offers multiple industry standard configurations for rack mounting and fiber routing ease with options suitable for both headend locations, and outdoor enclosure locations.

SFP Transceivers

PPC's transport and optimization solutions offer a full range of SFP transceivers capable of meeting the broad form factor, distance and data rate demands of our customers.

Multiplexer

A comprehensive selection of WDM variants – including CWDM/DWDM/BWDM/OADM – along with industry standard and high density optical splitters to support network optimization.

Optical Testing Equipment

PPC's optical testing equipment includes power meters, light sources, OTDRs and fiber scope/inspection tools that simplify connectivity management in optical networks.
