Pigtails Singlemode

Features & Benefits

- · Available with all fiber optic connector types
- · High quality ferrules and housings
- Low insertion loss and high return loss
- · Individual test results and traceability number
- Mating Durability: 1000 cycles; <0.2 dB change
- IEC, EIA/TIA and GR-326-CORE compliant
- · Customized on request

Overview

PPC offers high-performance pigtails colored in compliance with TIA-598-C standard for all types of fiber optic networks. The pigtails are manufactured in state-of-the-art controlled facilities and to strict manufacturing processes. The pigtail are designed to operate over a wide range of wavelengths, ranging from 1310nm - 1550nm for singlemode fiber with guaranteed low loss and reliability.

PPC pigtails are offered in wide variety of connectors for singlemode fiber. Each pigtail is individually tested and supplied with a test certificate. The unique serial number provides traceability of every single product.
