

FTTx Indoor Series Splice & Play Cabinets

Features & Benefits

- Splice & Play - reduces install time and lowers CAPEX
- Fully customizable and tailor-fit to meet your needs
- Open-source and non-proprietary components
- All fiber scoped and cleaned to exceed IEC 61300-3-35
- Lift-off door and side panels for easy and quick access

Features

- Vertical or horizontal equipment mounting
- Removable and reversible front door with padlock hasps
- Hinged, lift-off side panels
- Pivoting top cover for access to splice trays and routing
- Pivoting splice tray shelf with (3) 12-fiber splice trays
- Pre-stubbed with G657 A1 fiber pigtailed or MPO jumpers
- Direct connect splitter configurations allow for high density
- Fiber routing spools and fiber waterfall
- Wall mount brackets
- Heavy-duty aluminum construction
- Durable powder coat paint finish
- Optional splice bay for up to 288 splices

Splice & Play Cabinets

- Splice & Play solution increases speed to market
- Saves CAPEX through reduced need for labor
- Simplify the ordering process with all components in a single part code
- Streamline material management
- Reduce skill level required for installation
- Eliminate risk of failure due to poor end face cleanliness

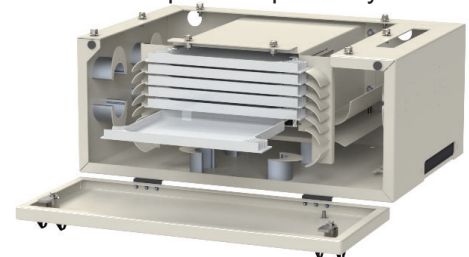

Overview

PPC FTTx Indoor Series Fiber Distribution Cabinets are designed to support any fiber network. Our FTTx cabinets provide all around access through hinged, lift-off access panels, while remaining secure from unwanted intrusion. Available pre-stubbed and fully integrated, see how Splice & Play cabinets can reduce costs and increase your speed to revenue.
